Enterprise Application Development & Integration: Education ERP Project

When two of the Northeast's most prestigious colleges needed a **trusted partner** to help them **negotiate** an application and system **overhaul**, we went back to school. By **designing, implementing, and establishing a complete ERP solution**, we helped them graduate to a completely **re-tooled, re-vamped, and revitalized structure** across **both campuses**. | **Problem solved.**

Steeped in tradition and a long history of success, our clients are two liberal arts colleges located in the Northeast.

PROBLEM

Our client was facing challenges in various aspects of their environment:

- Enterprise applications were outdated throughout primary operating divisions.
- Client needed help establishing, defining, and updating IT and business processes to support future growth.
- Limited availability and lack of large-scale technological project management experience within internal staff.

SOLUTION

The consilium1 team engaged in every aspect of the project:

- **Evaluated current environment and led a definition of business requirements.** Comprehensive solution began with strategic evaluation and definition of processes, applications and infrastructure.
- **Facilitated and coordinated RFP definition, vendor evaluation and selection criteria, and implementation of procurement process.**
- **Managed entire project from planning to implementation across all operational areas, including: Payroll, Student Information, Finance, Registrar, Alumni/Development and more.**

RESULTS

This comprehensive solution delivered for our client:

- **Streamlined processes improved efficiency and productivity across the board.** Revised processes for all faculty, staff and student constituencies to provide increased functionality and opportunities to support growth.
- **Improved technology increased efficiency, accessibility, visibility and collaboration across all student areas through a single view and data repository.**
- **Solid platform built to support growth moving forward.** As academic programs and student enrollment grow, the new platform was built to mirror that growth and scale accordingly.
